GERMAN DELEGATION

COCOM DOC. 3874
Paris, Febr. 8, 1960COORDINATING COMMITTEEEXCEPTION REQUEST BY THE GERMAN DELEGATION
ON THE DELIVERY OF TELECOMMUNICATION EQUIPMENT
TO POLAND

The German Delegation have the honour to submit the following request:

On the Posen fair a German firm exhibited a carrier frequency telephone installation. It was supposed to be returned at the end of the fair.

Since the Polish Post Administration is very much interested in promoting and expanding their post service system, they have asked to buy this equipment. It will be installed between Warsaw and Lodz and would certainly help to improve the communication system between the West and Poland as was confirmed by the German Ministry for Post and Communication.

The German Delegation submit the following details for further information:

The equipment consists of a 12 channel carrier frequency telephone equipment, Type VZ, 12 A
(2 Terminal stations and 1 amplifier station) 21.143,---
Item. 1523

Number of voice channels per two-wire line 12
a voice channel may be multiplexed into 24 VF
carrier telegraph circuits

Line frequency range 6 to 108 kc/s

Repeater span with 1.4-mm conductors (48 lbs/mile) and
air-space paper insulation approx. 22 miles (35 km)

The installation will take place under the supervision of German engineers, which guarantees that no diversion or reexport can take place.

The German authorities would like to grant an authorization. They are convinced, that the exception request covers all the conditions brought forward during the recent discussions on a revision of item 1523, conditions which may justify an exception from the embargo. The German Delegation therefore hope that no objection will be raised against this request, submitted within the framework of the special policy adopted towards Poland.
